## Attention

---

### Data Backup

All your personal data should be copied to separate permanent printed records. Resetting the product will cause personal data loss permanently. Such loss is not covered by warranty.

### Touch Panel & Display

- ✱ To protect the screen from being scratched, use only the stylus that comes with this product.
- ✱ When cleaning, rub the screen lightly with dry, clean and soft cloth (do not use volatile liquid).
- ✱ The screen may crack if the product falls on the ground.

### Extended Card

- ✱ Insert the Secure Digital Card/Multi Media Card into the card slot. Turn the product off before removing/inserting the card. Otherwise, the memory of the product may be lost and the card may be damaged.
- ✱ Do not remove the battery, turn the power off or insert/remove the card during data saving to avoid abnormality of the product.

### Battery & Earphone

- ✱ Keep the battery far from the fire. Otherwise, there is a risk of explosion. Do not connect the battery's terminals together to avoid short circuit.
- ✱ The sound volume of the earphone should be not too high so as not to injure your hearing.

### Non Waterproof

The device is non waterproof. Please keep it away from any liquid. If it gets wet, please dry the surface and send to our service center for checking.

### Magnetism

The product is magnetic. Please do not place it with other magnetic products to avoid losing some functions.

### Notes:

*Any damage caused by above reasons is not covered by the warranty.*

# Introduction of the device

## 1. Layout

### 1.1 Obverse Side:

- ① Screen
- ② Tablet key (Right)
- ③ Speaker
- ④ Microphone
- ⑤ Keyboard
- ⑥ LED Indicator
- ⑦ RESET Key
- ⑧ Tablet key (Left)

### 1.2 Reverse Side:

- ① Stylus
- ② USB Slot
- ③ SD/MMC Slot
- ④ Earphone Socket
- ⑤ Battery Cover

### 1.3 Key Description

- ① Chinese phonetic symbol
- ② Korean pinyin
- ③ Japanese kana
- ④ ChangJie
- ⑤ English letter

## Introduction of the device

---

### 3. The Panel

- ① The touch panel possesses high penetrability.
- ② The product adopts 4.3 inch TFT screen.

### 4. Power Source

One of the following three power sources can be used.

- ① Rechargeable lithium battery. (3.7V/1050mAh)
- ② Connect with PC via USB cable. (With charging function)
- ③ A power adaptor with DC output 5V/1A.

※ This power source can be used with operation ①.

#### 4.1 Replacing Battery

Insert:

- ① Press [ON/OFF] to turn off the power.
- ② Remove the battery compartment cover.
- ③ Insert the battery into the compartment as right.
- ④ Close the battery compartment cover securely.

Remove:

Repeat the steps ① and ②. Then please remove the battery as instruction.

#### Notes:

- ❶ When the power is insufficient, please insert the USB cable or power adaptor to recharge the battery.
- ❷ If the screen of "LOADING..." appears repeatedly, this means the battery is no longer usable. Please get a new one.

## Introduction of the device

- ④ *Personal data will be retained even if the device is out of power. Please turn the device off first, and then take out the battery 3 seconds later. Otherwise, data may be displayed incorrectly.*

## 4.2 Recharging Battery

If you are the first time to use the device, please recharging batttery first.

- ① Connect device and PC with USB cable. It takes about 5 hours to fully recharge.
- ② Connect the device and power supply with the special adaptor. One end is inserted in the USB slot, the other is inserted in the electrical outlet. It takes about 3 hours to fully recharge.

### Notes:

*The LED indicator displays different colors in different situations:*

- \* green light ---> No battery or battery full recharged.
- \* red light ---> Power is recharging with battery.

## Introduction of the device

### 5. Initialization or RESET

When you turn on the device for the first time or RESET the device, you should set your device according to the following steps:

- \* Select [N] to access the main menu.
- \* Select [Y], system check the data of memory to return to the default values. Then entering the Date/Time Setting screen.

- \* Tap [C] first, and then tap [Y] to clear all the data saved in the device. Then enter the Date/Time Setting screen.

## Introduction of the device

### 6. Introduction of the functions

Classical Desktop (Main Menu):

	Begin to search
	Tap district A--check the battery power Tap district B --enter the "World Time" (when insert the adapter , the icon of the district A is "UE")
	Tap to choose My Favorite
	Choose the 11 types of input method

## Introduction of the device

 	Upside picture---unselected Downside picture---selected “  ” --- Please log-in our website to download On-line Service
<input data-bbox="225 302 453 326" type="text"/>	Input the word which you want to search
   	Choose the type of search

- ① In the main menus:
  - \* Press [Menu] to switch among English, Korean, Japanese, Spanish and Chinese modes. (Suit for Chinese learners)
  - \* Press [TAB] to switch the main catalogue between simplified and traditional Chinese in Chinese catalogue.
- ② In the Main menus of function screens:
  - \* Press the corresponding numeric key to access to function screens.
- ③ In the function screens:
  - \* Press [Menu] to return to the main menu.
  - \* Press [ESC] to return to previous menu.
  - \* Press [SHIFT] first, and then press [SAVE] to access the help.

## 6.1 Input Methods

The device provides several input methods, you can set your input methods in “SYS--Input Setting”.

: Data searching...

: Corresponding input methods.

: Tab to access Japanese Soft Keyboard.

: Tab to access handwriting recognition.

## Introduction of the device

### 6.2 Handwriting Recognition

Whenever the icon  appears on the screen, handwriting recognition is available.

- ① Tap the icon.
- ② Tap  to switch to Chinese/English/Japanese/Korea input.
  - \* Tap  to switch to corresponding soft keyboard.
  - \* Tap  to open the on-screen symbol keyboard.
  - \* Tap  to switch the single/three window for handwriting.
  - \* Tap  to switch to the function of full screen multiple handwriting.

- ③ Write in the handwriting area with stylus.
- ④ The recognition result will be shown automatically in the standby area.
- ⑤ Tap the desired character in the standby area by the stylus.
  - \* Tap  to return to the keyboard input mode.
- ⑥ Handwriting areas 1, 2 and 3 are double window for handwriting, character will show in the handwriting areas 1, 2 and 3 separately. Handwriting areas 4 is a single window for handwriting.

## Introduction of the device

The full screen multiple handwriting window supports to tap other function keys when you are writing English words.

The recognition result

### Notes:

- ① The keyboard input method is also available when the English handwriting method is being used.
- ② Please don't write the first stroke in the function area when you use the full screen multiple handwriting.
- ③ Handwrite pen up time can be set in <SYS--Handwriting Setting>.

## 6.3 USB Disk

Through USB cable, you can move, duplicate or delete data and add new file folder, etc.

- ① Connect the device and PC by USB cable.
- ② Please safely remove the USB cable from PC before unlink, then escape from "SYS--PC Link" in the device.

## Introduction of the device

---

### Notes:

*During operation:* ❶Please make sure the device has enough power.  
❷Please not remove the link cable, otherwise the data will be lost or the device will be abnormal. ❸Please don't insert/remove extra card.

## 6.4 Download Operation

The device provides automatic searching function and allows you to create new folder for data. The different file formats must be identified for easy retrieval, so please put the download data under the following right path.

## Introduction of the device

	List for automatic searching	List for reading by correct directory

### 6.4.1 Automatic searching function

! Please don't remove the link cable, otherwise the data will be lost or other unknowable fault, and please make sure the device has enough power.

! During the process of data transmission, a red line in device will show the state of transmission.

! Before remove the USB:

- ① Make sure transmission of the data is finished.
- ② Then click  on PC to remove the USB safely.
- ③ Press [ESC] to escape from function of "SYS--PCLink".

## Introduction of the device

eg., Download the data of Interactive English to device:

Step 1:

Use USB cable to connect the PC and device, and then enter the function window of "SYS--PC Link".

Device

Step 2:

- ① Please insert the CD-ROM to PC.
- ② Duplicate data from CD to new disk of PC, and make sure capacity of the disk is big enough to save the data.

Step 3:

- ① Finish to download the data, please escape from the function screen of "SYS--PC Link".
- ② Enter the screen of Interactive English, the device begins to search the download data.

Search the data

## Introduction of the device

Open the Interactive English

### 6.4.2 Create new folder for downloading data

eg.: Download the data of Extension Dictionary to device:

Step 1 and step 2 are the same as step of “6.4.1”.

Step 3

At first, enter the “SYS--File Management”.

Then choose [C], enter catalogue of “STUDY”

## Introduction of the device

Tap "FUNC--2 New Folder"

Input "EXTRADIC", then tap [ENTER]

Duplicate Three files to the new folder under the [C:\STUDY\EXTRADIC]

Enter the "Extension Dictionary"

## DICT

### Dictionary Summary

- ◆ Provides smart input and wildcard search.
- ◆ Provides searching function for all the words, sentences and phrases.

Strokes practice screen

## 4. Searching Data

Provides several search methods to help users.

### index screen:

1. Smart input search
2. Wildcard search (Only available for English)
3. Cross search
4. Secondary search

### explanation screen:

1. Multi-layered search
2. Other data search
3. Search
4. Sentence Translation

### 4.1 Smart Input Search

Just input the first one or several letters, you can find the desired words or phrases.

There are 3 kinds of methods:

- ① Input the first or first several letters of a word, or mark a word to be looked up, and then press [ENTER] to confirm.  
As for Chinese character, input the first one or several Chinese characters to be looked up, and then press [ENTER] to confirm.
- ② Double tap the word or character to be looked up.
- ③ Press [1]~[0], [I] to select the corresponding word or character.

### 4.2 Wildcard Search (Only Available for English)

To look up a word that you are not sure of spelling, input all the letters you know, and then replace the unknown letters with “?” or “\*”.

Steps:

- ① Input the English letters that you are sure of.
- ② Input unknown letters with “?” or “\*”.
- ③ Press [ENTER], the list of words matching with your input will be displayed.
  - \* Press the Page Up/Down key to look up.
  - \* Press the Up/Down key to move the cursor to select words.
- ④ Press [1]~[0], [A], [B], [C], double tap the word or press [ENTER] to search.

#### Notes:

*“?” stands for an unknown letter; “\*” stands for a string of unknown letters.*

## DICT

### 4.3 Cross Search

When the current dictionary does not contain the word or character you want to look up, the device will transfer to other dictionaries (Oxford Advanced Learner's Dictionary, English-Chinese Dictionary and DIY Dictionary). If the word or character is available in other dictionaries, it will display the explanation.

The cross search order:

English word: Oxford Advanced Learner's Dictionary -> English-Chinese Dictionary -> DIY Dictionary -> Search Engine. Chinese character: DIY Dictionary -> Search Engine.
---

#### Notes:

*If the corresponding Extension Dictionary of a certain dictionary has been downloaded, the device will search for words in the Extension Dictionary first, and then others.*

## ASST

### Assistant Summary

- ◆ Provides amusing functions of Games World, My Album, eBook, etc.
- ◆ Provides the functions that Name Card, Memorandum, Schedule, To do list, Anniversary, Class Schedule and Income & Expense have following features:
  - \* Create information in Chinese/English, numbers or special symbols.
  - \* Allows to copy, modify, delete records or create new ones.
  - \* Allows to set custom fields.
  - \* Allows to secure data from unauthorized access.
  - \* Allows to increase new categories which can be edited.
- ◆ Provides the functions of Calculator, Engineering Calculator and Conversion.

### Calculator

- \* Provides standard calculator and Engineering calculator.

### Conversion

- \* Provides "Unit Conversion", "Size Table" and "Currency Exchange".

### Name Card

- \* Provides personal information record.
- \* Provides portrait setting, index search and records view.

### Paint Brush

- \* Provides drawing tools to produce graphics.
- \* Allows to copy, modify, delete a record or create a new one and to set drawing as startup picture.

### Alarm Setting

- \* Provides various alarms and allows to set alarm time, no alarm day

## ASST

---

and alarm interval.

### ✕ Memorandum

- \* With the PIM common functions.

### ✕ Schedule

- \* With the PIM common functions.
- \* Allows to set alarm for important schedules, and to view daily and weekly schedules.

### ✕ Class Schedule

- \* With the first two items in common functions.
- \* Allows to check new contents of Class Schedule at any moment.

### ✕ World Time

- \* Displays the local time as well as that of two other cities, and allows to adjust time, date and cities.
- \* Provides timer and stopwatch.

### ✕ Anniversary

- \* With the PIM common functions.
- \* Allows to record important days in lunar or solar calendar.

### ✕ Calendar

- \* Provides calendar from January 1901 to December 2099, provides AD and allows to display 6-months calendar and 24 solar terms.
- \* Allows to check daily issues and constellations, and provides mark for scheduled days and anniversaries.

### ✕ Income & Expense

- \* Provides the record and management of your daily incomes and expenses, provides encode and total sum of your incomes and expenses.

## ASST

---

### To Do List

- \* With the PIM common functions.
- \* Allows to set priorities, and to view work list of every day.

### Chinese Fortune Teller

- \*provides Chinese Fortune and Weight Teller.

## 1. PIM

### 1.1 Data Input

Input data in the corresponding fields of Name Card, Memorandum, Schedule, To do list , Anniversary, Class Schedule and Income & Expense with provided or downloaded input method.

Input data in the fields:

- \* Tap the corresponding input method to input data.
- \* Tap  to open the drop-down menu.
- \* Tap   or press the Up/Down key to scroll up/down.
- \* Tap   or press the Page Up/Down key to view on the previous/next page.
- \* Tap  or press [ENTER] to start from a new line.
- \* Tap or press [SAVE] to save data.
- \* Press [ESC] to close the window after selecting the corresponding item.

Allows to set custom category. (Unavailable in Class Schedule)

Allows to edit new category. (Unavailable in Schedule, To Do List, Anniversary, Class Schedule)

# ASST

## 1.1.1 Custom Field

### \* Take Name Card as example

You can set up to 6 custom fields, all of which can be deleted in <SYS --Memory Management>.

- ① Tap [Func] to select “2 CustomField”.
- ② Tap item to input data.
  - \* Then tap  to open the dropdown menu.
- ③ Tap [Finish] or press [SAVE] to save data.

## 1.1.2 Edit Category

There are five categories--Business, VIP, Private, Relative and Friends for Name Card. You may add three more categories for your choice.

For Memorandum, there are three categories--Daily, Business and Family, you can also add five more.

All the categories can be renamed. The custom categories can be deleted in Memory Management.

## 1.2 Data Index

If there is saved data, the index will appear when the function is accessed. You can delete or lock data on index screen.

- ① Name Card: If the entry contains photo, tap  to look up the portrait. If not, directly access the details. Tap telephone number to view other number list.
- ② Memorandum: Displays the list of categories first when you access, and then displays the index screen of the selected category.
- ③ Schedule: Allows to look up One/All, Week/Day Chart on the index screen.

## ASST

- ④ To Do List: Allows to search date on the index screen.
- ⑤ Anniversary: Allows to look up lunar/solar calendar on the index screen.
- ⑥ Class Schedule: Index screen is not available. Tap the course directly to view the details.

View the portrait

View the phone No.

## 1.3 Detail View

You can view the details of data, and modify, copy and delete data. Besides, words can be cross searched in corresponding dictionaries.

## 2. Paint Brush

- ① Provides 12 tools and 41 functions.
- ② Provides 14 functions bars.
- ③ Provides 65,536 colors.

### 3. World Time

- ① Provides date and time display for local city as well as others.
- ② Provides local city, date and time settings.
  - \* Tap time/date/city name on the screen to set.
- ③ Provides timer, stopwatch.

### 4. Calculator and Conversion

- ① Provides basic arithmetical, memory operations as well as percentage and square root.
- ② Provides Engineering calculator such as functions, trigonometry, logarithm, angle and radian conversions.
- ③ Provides dress, shoes, hat size comparison charts of America, Britain, Japan, Germany, Europe, etc.
- ④ Provides conversation function of 110 currencies and 2 user-defined currencies, as well as the exchange rate setting.

## System Summary

- ◆ Provides function of device setting, it makes you operation easier.
- ◆ Provides Memory Management and File Management to clean up and manage your folders.

## ✕ PC Link

- \* Allows to receive data from PC via PCLink.

## ✕ Memory Management

- \* Allows to view the status of the main memory, optimize memory management and delete data.

## ✕ File Management

- \* Provides data management.
- \* Provides function of data management, new folders created, rename, delete.
- \* Allows to format the disk, rename files, exchange data between Extended Card and device.

## ✕ Startup Picture

- \* Allows to set startup picture and background.

## ✕ Menu & Language Setting

- \* Allows to switch among five kinds of menu displays: Chinese, English, Korean, Japanese and Spanish.

## ✕ Sound Setting

- \* Allows to set startup music/schedule alarm, turn on/off pen & key tone and select KK/DJ display.
- \* Allows to set Chinese pronunciation, repeat times and pronunciation type of Chinese.

## ✕ Power Management

- \* Allows to set auto power off time and power-saving time.

## ✕ Input Setting

- \* Provides input methods setting.

## ✕ Handwriting Setting

- \* Provides handwrite penup setting and recognition setting, and allows to adjust touch panel calibration.

## ✕ Password Setting

- \* Allows to set, change or clear password and allows to lock/unlock private data.

## ✕ My Setting

- \* Allows to set colors for topic and dictionary and allows to set desktop.
- \* Auto to connect with USB.

## ✕ My Favorite

- \* According user's favorite to set "My Favorite", you can use "My Favorite" easily to get the functions which you need.

## ✕ After Service

- \* Provides BESTA information of Telephone, Fax, Website, OS Version, etc. Allows to upgrade system and view the copyright information.

## 1. PC Link

Connect the device with PC via PCLink cable, and then you can transmit data. There will be a message indicating the current connection status during and after transmission.

## While connecting:

- !! please do not interrupt, otherwise data may be lost. please make sure there is enough power or the adapter is inserted.
- !! Before pulling out the USB connecting line, please uninstall the USB device safely.

## 2. File Management

This function allows to transmit data between card and the device. You can create new folder or rename folder.

Open the top path

Press [ENTER] to access the selected disk

## 2.1 Creating New Folder

- ① Open the path in which you want to create new folder, and tap [Func] to select “2 New Folder”.
- ② The default name of new folder is “MYDIR”. Input new name and then press [ENTER] to confirm.

Creating new folder

Copy data to device from card

## 2.2 Rename

- ① Choose your desired file, and then tap [Func] to select “3 Rename”.
- ② Input new file name, and then press [ENTER] to confirm.

## 2.3 Putting Folders in Order

- \* Tap  to select item, as which the folders will put in order.
- \* Tap “Name” to put folders in the order, which will be marked by  .

## 2.4 Format

Select disk or file to be formatted

Formatting

### Notes:

*Please select the disk format as FAT32 when the SD card is over 64MB.*

## 3. My Favorite

“My Favorite” provides 9 functions for users to set. After setting, you can tap  in the main menu to enter the function which set in “My Favorite”.

My Favorite screen

Tap  in the main menu

The attached CD-ROM provides PC Service Home.

picture 1

- \* **Setup:** To install PC Service Home program, please refer to page 73~74.

### Notes:

- ❶ For Windows2000 users, we suggest you install Windows2000 Service Pack 3 program provided by Microsoft. If Service Pack 3 is installed, you don't have to install USB driver program. Please select "USB Driver readme" in picture 1 to follow the instructions to install.
- ❷ For Windows2000 users, please access super administrator (Administrator) to log in.

# PC Service Home Guide

---

## 1. PC Service Home Installation

PC Service Home provides ten functions: Media Download, Personal Information Manager, Synchronization Center, Backup and Restore, CD Express, Open U-Disk, Service Toolkit, Internet Download, DIY Dictionary and Settings, which have these following characteristics:

- \* Download multimedia files like films, pictures and eBooks;
- \* Edit and manage data for Schedule, Name Card, etc;
- \* Synchronizing data between PC and the device;
- \* Backup and restore PIM data for Name Card, Memorandum, Schedule, etc;
- \* Service Toolkit contains EbEditor and Media Factory that combine with text, sound and picture;
- \* Share data between PC and the device;
- \* Provides tools which can convert the media file on PC into .bav or .dsy that used only in our device.

### 1.1 S/W & H/W Requirements before Installation

You need to install PC Service Home program into your PC. The following are the system requirements:

- \* Traditional Chinese/English/Windows2000/XP/Vista operating system;
- \* CPU: Pentium (R) III 450MHz or better;
- \* LCD: VGA 800\*600 or better, which is supported by Microsoft Windows;
- \* Version 5.5 version of Microsoft Internet Explorer or above;
- \* Minimum 650 MB of hard disk;
- \* CD-ROM;
- \* sound effect card.

# PC Service Home Guide

---

## Notes:

*When using the PCLink in English operation system, please make sure to install Chinese Traditional font support: “Chinese (Traditional) Text Display Support” and “Chinese (Traditional) Text Input Support”.*

## 1.2 Installation steps

- ① Insert the disk to PC, then there will appear a picture (as picture 1), tap “Setup” to install.
- ② Enter the screen of “Welcome to the Install shield”, click “Next”.
- ③ Enter the screen of “Choose Destination Location”, click “Browse...” to select file folder of destination.
- ④ Click “OK” to confirm the selection in the screen of “Choose Folder”.
- ⑤ Click “Next” to select setup type.
- ⑥ Select “Typical”, and click “Next” to access to the screen of “Select Program Folder”. Then click “Next” to continue.
- ⑦ The Install Shield Wizard begins to install EBook Editor to your computer.
- ⑧ After installation is completed, click “Yes” or “No” to select whether to restart your computer now, and then click “Finish” to end.

## Notes:

*To uninstall PC Service Home program, please access “Control Panel” → “Add/Remove Programs”. (Also can from “Programs” → “PC Service Home” → “Uninstall PC Service Home”)*

## 1.3 Opening the Program

Click “Start” menu → “Programs” → “PC Service Home” → “PC Service Home 2.0”, or double click the shortcut “” in desktop to open. (as picture 2)

# 1 PC Service Home Guide

picture 2

## Notes:

*Please use standard font type in Windows to optimize PC Service Home display.*

## 1.4 Communication

Data communication is one of the functions in PC Service Home, including Media Download, Synchronization Center, Backup and Restore, CD Express and Open U-Disk.

- \* Media Download: Download applications, eBooks, etc, to the device.
- \* Synchronization Center: Synchronize data in the device and PC, which will overwrite old data by new one and always keep contents the same; the synchronized function supports PIM applications, such as Anniversary, Schedule and Name Card.
- \* Backup and Restore: Backup all data of the device in PC. To restore all the backups from PC to the device.

## 1 PC Service Home Guide

- \* CD Express: Transfer music in CD-ROM to the device in MP3 format.
- \* Open U-Disk: Move, copy, delete and append file folder, etc., into PC via USB.

### Notes:

*PIM (Personal Information Management) means the data saved by user.*

### Take “Media Download” as example to introduce operation steps:

- ① Connect USB cable into the corresponding sockets, device will enter the picture of “PC Link (USB Disk)”.
- ② Click “Media Download” in PC Service Home to access the downloading screen.
- ③ Click “Media Download” in PC Service Home (as picture 2) to access the download screen as picture 3.

picture 3

- ④ Select the desired category and file, and then click “Download” to download into the device.

### Notes:

- ❶ Please do not remove the cable, close the PC Service Home program or turn off the power while synchronizing, they may cause system corruption and damage to your data.
- ❷ Tap “Scan e-dictionary” can search current title(s) in the device, if some title(s) which are not the default path, can automatically move

## **1 PC Service Home Guide**

*the title(s) to the default path in order to make the operation easier.*

### **\* Backup and Restore**

Repeat steps ① and ② of “Download”. Click  Backup and Restore, and then select “Yes” to arrange the path where you'd like to keep backup file. Input file name (\*.BBK) and select “Save” to backup files. If click “No”, select the files to be restored to BBK format, and then click “Open old files” to place it back to the device.

### **\* Synchronization Center**

Repeat steps ① and ② of “Download”, and then click  Synchronization Center.

### **\* CD Express**

Allows to transfer music in CD-ROM in the form of MP3 directly to your device.

### **\* Open U-Disk**

Repeat steps ① and ② of “Download”, and then move, copy, delete or create new file folder.

### **\* Internet Download**

Please go to our website to download and update data.

### **\* DIY Dictionary**

Import the DIY Dictionary in the device, and the contents can be created or modified.

### **\* Settings**

Set “ADS Center, ADS Check, Media Download and System Settings” respectively. Tap  Settings, and then tap “ADS Check” to set.

## **1.5 Data Management**

This allows you to append, modify data, edit category, and custom field name on PC in PIM applications: Name Card, Memorandum, Anniversary, Schedule, To Do List, Class Schedule and Income & Expense.

# 1 PC Service Home Guide

## 1.5.1 Editing Data (Take “Name Card” as Example)

- \* Click “New Record” → “Name Card”. You may append Name Card data on the editing screen. (as picture 3)
- \* To modify the content, double click the entry. (as picture 4)
- \* To copy, paste or delete one or more entries, select the entries first.

picture 4

### Notes:

*Tap “Custom page”, and then Click the blank area of “Portrait” to import BMP or JPG file as Name Card portrait.*

## 1.5.2 Custom Field

Click “Edit Custom Fields” to add custom fields besides the built-in fields. Up to 6 field types can be selected: text, date, time, integer, decimal, currency, or check box, shown in picture 5.

picture 5

# 1 PC Service Home Guide

## 1.5.3 Editing a category

In Name Card and Memorandum, you may add up to 8 categories (including built-in categories).

Tap “Manage Categories” in “Tasks Pane”:

- \* Select “Name Card” → “Add” → input a new category “Teacher” (as picture 6);
- \* Select “Delete” to delete the newly added category (built-in category can not be deleted);
- \* Select “Rename” to rename the selected category.

picture 6

### Notes:

- ❶ Data can not be copied or pasted in different functions.
- ❷ Custom field is not available in Anniversary, Schedule, To Do List, Income & Expense or Class Schedule.
- ❸ The name of custom field/category is up to 16 characters.

## 1.6 Import/Export

You can import/export corresponding data of Schedule, Name Card, Memorandum, To Do List from PC Service Home to Outlook Calendar, Contact, Notes and Tasks of PC, and you are allowed to import/export vCard between both ends.

## **1 PC Service Home Guide**

---

### **1.6.1 Importing Data (Take “Import Outlook contact” as Example)**

Import Outlook contacts to PC Service Home as Name Card.

※Click “File(F)” menu “Import and Export” → “Import Outlook contact”.

※Tap “Next”, and then it displays “Import Outlook contact” window, select data from the right area to be imported, click “Import” and then click “OK” to import. (as picture 7)

picture 7

## **1.7 Help**

When you have question and difficulty about operation, please click “Help” → “Help(H)” menu to see the on-line help.

## Service Toolkit

## 2. Service ToolKit

### 2.1 EbEditor

EbEditor is a software which supports 16 colors and color pictures combined with text, sound and pictures. You can make a vivid and interesting eBook or e-card by using the eBook editor in the CD/website.

Click “Service ToolKit” -- “EbEditor” in PC Service Home to access the eBook editor screen. (as picture 8)

picture 8

#### Tool list:

-  (Create a new cm file): To create a new project.
-  (Open existed file): To open an existed project.
-  (Save file): To save current project.
-  (Add CM): To add a new CM in the index of a project.
-  (Play eBook file): To play eBook with special effect.
-  (Add image): To add picture or animated cartoon in the current CM.
-  (Add sound): To add MP3 file in the current CM.
-  (Add text): To add text in the current CM.
-  (Add text button): The button of adding text in the current CM.
-  (Add output control): You may use macro function. please click “Help” menu → “Content” to view “Advanced functions of eBook Editor” of “Make your own eBook” → “Using Macro to optimize your eBook”.

## Service Toolkit

(Play eBook): Play the eBook in the simulating circumstance.

(Convert images): To convert BMP file into HCA file.

(Set [start/end] Moving path): To set moving path for the text or image.

### 2.1.1 Creating a Project

- \* On the “Index” screen, click icon  in the top left of the tool bar.
- \* Input “Project Name” (you can name it by yourself)→Select the model platform →click “OK”. (as picture 9)
- \* Click the “Properties” bottom to modify the contents’ mode.

picture 9

### 2.1.2 Creating Text

- ① Tap  to create a new section, then click  to access text editing area.
  - \* Input words in the text editing area directly.
  - \* Tap  on the tool bar to choose the type of files (.txt or .html), then loading the files directly.
- ② Choose the type of the “words effect” what you want. (as picture 10)
- ③ Click “OK” and tap  to save text files at last.

## Service Toolkit

picture 10

### 2.1.3 Loading Images

Before loading images, you have to convert BMP, JPG or GIF format into HCA format. It is recommended that your images are less than 320\*240 pixels.

#### 2.1.3.1 Loading Images(Static Images, Animation Images)

- ① Select "Section" or  to add a new section, then click  from the tool bar.
- ② Tick "Use system image library", select HCA file from file folder.
- ③ Select an image variety mode in the preview area (as picture 11): Normal, Reel roller, Stereo scroll.
- ④ Click "OK", then click  to save file.

picture 11

## Service Toolkit

### 2.1.3.2 Loading a Background Color

- ① Select  from the tool bar.
- ② Click “-[BLACK]-”, then select color from the color plate at the bottom of the picture, Click “OK”.
- ③ Right-click in the editing area. Select “Layer” , select “Push to bottom”. then click  to save file.

#### Notes:

*he background color will appear only when the text is transparent.*

### 2.1.3.3 Converting a Batch of BMP Static Files into HCA Animated Files

- ① Click  to convert the images.
- ② Click “Open” to select all BMP files (files must be of the same resolution) to be converted as a countdown animation. then click “Open” to open.

ann1\_a.BMP

ann2\_a.BMP

ann3\_a.BMP

- ③ Use “UP” and “DOWN” button to rearrange files in order.
- ④ Select the color of the images, please don't click “Batch Processing”.
- ⑤ Click “Compress”, and then select where to put the file folder and input file name.
- ⑥ Click “Save” to get an HCA animation file.

#### Notes:

*It is recommended that you should name the files in sequential order, edit with number and put an underline between letter and digit. Please make sure that the color of the 16-color animated file you're converting*

## Service Toolkit

---

*does not exceed 15-color limit. As for animation of 256-color, make sure the limit of 255-color is not exceeded.*

### 2.1.3.4 Other Varieties--Shutter, Block Slide

- ① Select "Section setting" from the pop-up menu.
- ② Select a style from the drop-down menu of Begin and End: Horizontal shutter, Vertical shutter, Fade out.
- ③ Select an Ending mode: Close by animation, Close by key, Close by time.

### 2.1.4 Setting the Moving Path

You can set path in which the image or text is moved. Direction of the movement depends on the number you marked. You can set speed and length of the step for the moving path.

- ① Select a section, text or picture to be moved, Click .
- ② Left-click in editing area to set the order of path.(as picture 12)
- ③ Select moving length and delay interval. Click "Repeat play" if necessary, and then click "OK".

picture 12

### 2.1.5 Adding Audio Effects

- ① Select a section to add audio effect, Click .
- ② Click "System library", select an MP3 file (16kbps-320kbps) from the list.

## Service Toolkit

---

- ③ Select play time, set start time, tick "Cycle play", click "OK".

### 2.1.6 Setting a Page Header/Page Footer

- ① Switch to the "Index" screen. Select "Edit", then "Set Page header/footer".
- ② Click "Insert" to insert page number, date and time at page header or page footer. You can input the content manually, then click "OK".

### 2.1.7 Playing the Content

- ① Select  to play the eBook contents.
- ② Click page up/down to play the previous/next page; click "ESC" to close it.

### 2.1.8 Downloading to the Device

- ① Click "Media Download" to access the download screen.
- ② Firstly, click "eBook" in "Category List", and then click "Scan" in tool bar, select (.book) files to download.
- ③ After searching, click files in "My Computer", and then click "Download" icon to download.
- ④ You can select reading in <F3MULTI -- eBook>.

## 2.2 Video Converter

Video Converter is an easy film converting tool. It can convert the common media (mpg, mpeg, avi, dat, rm, rmvb, mov, mp4, vob, asf, flv, 3gp, etc.) into avi file that can play in the electronic dictionary and PC.

- ① Open Video Converter. (as picture 13)

## Service Toolkit

picture 13

### Tool bar:

-  :Add the media files which need to be converted.
-  :Delete the files which you selected.
-  :Delete the files in the file list.
-  :Begin to convert files.
-  :Stop to convert files.

- ① Tap  to select the files which need to be converted, then click “OK”.
- ② Tap [Browse] to browse the folder of output files, default path of SYS is: C:\MY video.
- ③ Tap  , begin to convert to a avi format file. After finish converting, escape from the display frame, there will be a mention is “Conversion Finish”.  
(as picture 14)

picture 14

### Maintenance

1. Keep it dry. Precipitation, humidity and liquid that contains minerals will corrode electronic circuits.
2. Do not use or store it in dusty, dirty areas as its detachable parts may be damaged.
3. Do not store it in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and melt certain plastics.
4. Do not store it in cold areas. When the device warms up, moisture can form inside it, which may damage electronic circuit boards.
5. Do not attempt to take the device apart. Improper handling may damage the device.
6. Do not drop, knock or shake it. Improper handling may cause damage to the liquid crystal panel.
7. Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
8. Do not paint it. Paint can clog the device's detachable parts and cause it to malfunction.

Do not operate the device below the temperature 0 or over 40 degrees. Excessive heat or cold will cause malfunction and incur damage to the device. To avoid such from happening, please do not use the device for two hours after it has been exposed to excess heat or cold, because the humidity or moisture formed by the temperature changing will cause damage to the device.

## FCC NOTICE

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the Instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient/Relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.
